

USS Laffey: The Ship That Would Not Die Board Game

USS Laffey is a solo game of damage control as you desperately scramble to survive the most determined Kamikaze attacks of World War II. You will re-enact the harrowing 80 minutes of terror and mayhem the crew of the Laffey went through as they fought off 22 Japanese planes. The Japanese aircraft you face in the game are the same four types (Val, Judy, Kate, and Oscar) in the same order of attack.
